This is to certify that I have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Sandown, of which the above is a true summary for the fiscal year ending June 30, 1937 and find them correct in all respects.

JOHN D. KELLEY

Auditor

July 15, 1937

To the School Board and Citizens of Sandown:

I herewith submit my eleventh annual report as Superintendent of Schools.

### INSTRUCTION

The only change in teachers occurred at the Pine Grove School where Miss Elaine Cheney of Kingston is now at work, replacing Miss Hollingshead, resigned. Miss Cheney comes well qualified and recommended by Plymouth Normal School. Her work so far gives every indication that she promises to develop into an excellent teacher. Miss Hollingshead withdraws from Sandown to accept a more lucrative position elsewhere. She departed with the commendations of her friends, colleagues, and employers.

This topic of Instruction brings to mind the activities and progress of the children in school. Certain studies of promotions and reading abilities have been conducted. These concern the pupils in grades 2-7 inclusive of last year. We find that, as a whole, 85% received promotion to the next grade; 8% trial promotion, and 7% non-promotion.

In that important tool subject of reading, it was found that 7 percent of these children were far below grade and some 9 percent more were experiencing some difficulty in one form or other. In the main, the former group show very little comprehension while the latter have trouble to fully appreciate the material read. Test scores give evidence in correlation with teachers' reports to parents that the above percents are an accurate picture of the pupil situation in reading ability. We must aim at and strive to achieve a literate America. Therefore, this discussion points the way, furthers our intent to make our pupils read, and fires our ambition to contribute toward this objective. I do not wish to convey that these pupils do not read at all,

but rather that they do not read as well as they should in their grade. To be sure, the group of children under scrutiny is small, yet they are your children. When compared with this whole Union, the results are favorable, yet close enough to Union figures to warrant attention in this summary.

### PERFECT ATTENDANCE

CONCLUSIONS

I commend the School Board for its attitude toward the proper upkeep of its buildings. With the means at hand it has done very well and the rooms present a good appearance.

In closing, I express my appreciation to the teachers for their very conscientious efforts during the past year, and to the School Board for their active interest in the work of the schools and to my suggestions for improvement.
